Fast, secure and reliable future

IITJEE | MEDICAL | FOUNDATION

WORLD OF IITIAN'S FOR YOU

The only Institute in Vapi & Valsad run by IITian's

VAPI VALSAD SILVASSA DAMAN

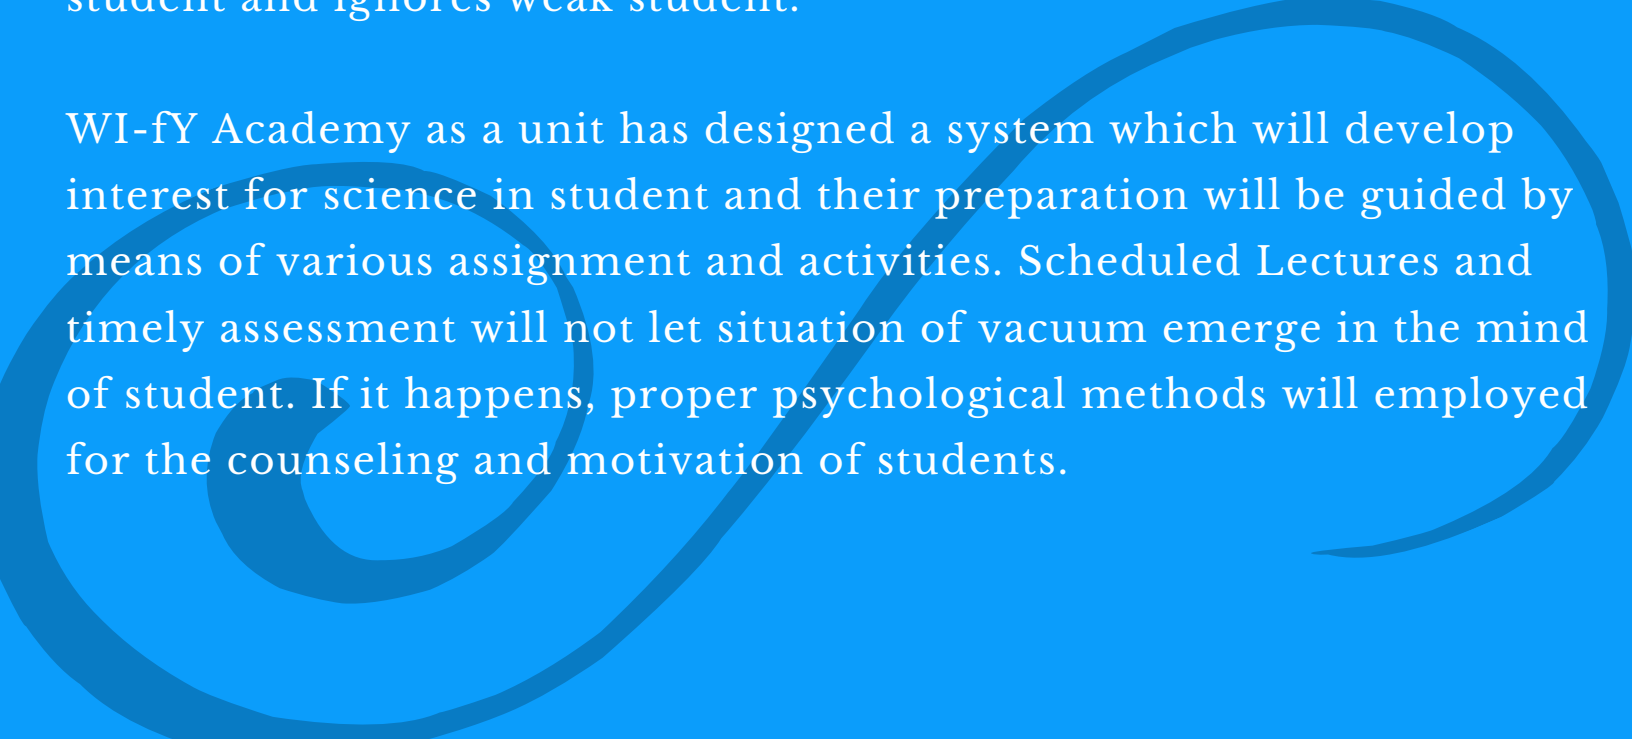

*I fear not the man who has practiced 10,000 kicks once,
but I fear the man who has practiced one kick 10,000 times.*

.....Bruce Lee

The group of experienced IITians on realizing the above quotes have come together to form an institute WI-fY (World of IITians For You) ACADEMY. During our lectures and interactive session and our teaching life we kept on pondering that in spite of so intense coaching why the cut off for JEE and other competitive examination is less(Eg: JEE Mains cut off for the year 2014 was 105/360).

Conclusion is shocking. Various institutes claims to provide proper direction to the students but fails to do so. Student spends a significant time thinking what he should do or how he should prepare for any entrance examination. Coaching concentrates only on bright student and ignores weak student.

WI-fY Academy as a unit has designed a system which will develop interest for science in student and their preparation will be guided by means of various assignment and activities. Scheduled Lectures and timely assessment will not let situation of vacuum emerge in the mind of student. If it happens, proper psychological methods will employed for the counseling and motivation of students.

Message from Director's Desk

It is the most crucial phase in your life to choose a prestigious career. Every science student wishes to lead a successful career as an Engineer or a Doctor. The very fact that you are reading this, it means that you are a sincere aspirant. We appreciate your will and courage in choosing the best and most challenging academic endeavor at your level. It has been the endeavor of WI-fY Academy to keep pace with the latest techniques and adopt new thoughts in guiding the students. Before making preparations for the Entrance Examination, it is not only important to know what should be studied but it is also of paramount importance to know what should be the strategy for preparation. Our philosophy is simple to penetrate concepts into the minds of student through problems.

We strongly believe the above quote by Bruce Lee. WI-fY Academy as a unit has designed a system which will develop interest for science in student and their preparation will be guided by means of various assignment and activities. Scheduled Lectures and timely assessment will not let situation of vacuum merge in the mind of student. If it happens, proper psychological methods will employed for the counseling and motivation of students. At WI-fY academy we have restructured our subject courses to incorporate the preparation of board exams along with the preparation of advance subject test. We believe that this approach will cut down duplicity of effort of students and will maximize their efficiency.

Quality of this institution is beckoned by continuous hard working of well qualified and experienced faculties. With lots of humility and honour, we as a team have taken up the responsibility of nurturing innovation, creativity and excellence in our students. Library and other resources are also available to students and practice of online tests will also be provided.

Friendly stress free environment will inculcate core values like perseverance, sincerity, discipline and responsibility in students which will boost up their confidence increasing their abilities, attitude and beliefs. Apart from imparting confidence for competitive examination, development of moral values in student is our aim. So that students becomes an asset for nation and contribute in the growth of the nation.

Wish you a very happy and fruitful journey at WI-fY Academy .

--- **Akanksha Suryakant Pandey**

Our Vision

To prepare students for leadership in this ever changing, competitive world by providing focused teaching in conducive environment with the right fuel which produces excellent Rankers. Our past record supports the fact. Academic teaching when supplemented with other exercise based mental, reasoning and logic enriching activities produces best out of the student. To become known for maintaining the highest standards for the faculty, material, classroom ambience and other facilities required for their overall growth. Our objective is to obtain maximum output in minimum time from student's perseverance.

*"Knowing is not enough; we must apply.
Willing is not enough; we must do."*

- Johann

PRODYOGIKI

Prodyogiki - Regular

For students in XI

Since JEE-MAINS is centralized national entrance examination for admissions

in reputed engineering college in INDIA, students in this batch will be trained constantly for 2 years. Students will be prepared for IIT-JEE Advance, JEE Mains, BITSAT and other independent entrance exams like VITEEE, SRM, etc.

Note: Syllabus for each examination is similar. So lecture held will be same but assessment through assignments and tests will differ based on the potential of the student or the course he/she opts.

Prodyogiki - Intensive

For student in XII and BERSERK i.e. DROPPER students who have taken one year time to achieve their dreams.

This course offers intense teaching through increased number of lectures and rigorous assignments and homework for preparation of JEE MAINS in one year.

Prodyogiki - Concise (Rank Booster Course)

For student in XII and BERSERK i.e. DROPPER students who have taken one year time to achieve their dreams.

This course offers intense teaching through increased number of lectures and rigorous assignments and homework for preparation of JEE MAINS in minimum 240 hours. Such courses are commonly known as crash course, but WI-fY Academy calls it as rank booster course.

COURSES OFFERED AT WI-fY (for CBSE, ICSE and GUJARAT board students)

FOR CLASS XI, XII AND DROPPERS FOR PREPARATION OF JEE-MAINS AND ADVANCE, OTHER STATE AND NATIONAL ENTRANCE KVPY AND INTERNATIONAL OLYMPIADS.

SUBJECTS:

PHYSICS, CHEMISTRY AND MATHEMATICS.

SWASTHYA

Swasthya - Regular

For students in XI

GUJCET (Gujarat Common Entrance Test) is centralized state entrance examination for admissions in reputed Medical colleges in GUJARAT. Students in this batch will be trained constantly for 2 years. Students will be prepared for GUJCET, AIIMS, AIPMT and other examinations like COMEDK, etc.

Note: Syllabus for each examination is similar. So lecture held will be same but assessment through assignments and tests will differ based on the potential of the student or the course he/she opts. Batch of GUJCET will be arranged separately.

Swasthya - Intensive

For student in XII and BERSERK dropper students who have taken one year time to achieve their dreams.

This course offers intense teaching through increased number of lectures and rigorous assignments and homework for preparation of Medical entrance examinations in one year.

Swasthya - Concise (Rank Booster Course)

For student in XII and BERSERK dropper students who have taken one year time to achieve their dreams.

This course offers intense teaching through increased number of lectures and rigorous assignments and homework for preparation of Medical entrance examinations in minimum 240 hours. Such courses are commonly known as crash course, but WI-FY Academy calls it as rank booster course.

COURSES OFFERED AT WI-fY (for CBSE, ICSE and GUJARAT board students)

FOR CLASS XI, XII AND BERSERKS FOR PREPARATION OF AIIMS, AIPMT AND GUJ-CET, OTHER STATE AND NATIONAL ENTRANCE KVPY AND INTERNATIONAL OLYMPIADS.

SUBJECTS:

PHYSICS, CHEMISTRY AND BIOLOGY.

NEEV

The cut throat competition, nowadays, calls for an intense preparation for all competitive examinations like JEE (Mains), JEE (Advance) , AIIMS, AIPMT, GUJCET, Olympiad, etc. For example, student in 11th standard preparing for IIT Advance examination has to solve around 25000 to 30000 questions including Module, assignments, tests, etc. So a Student needs to dedicate 3.5hours to 4hours each day only for practicing questions. Same time is required to go through theory, making entire learning very tedious and tiresome. Therefore WI-fY Academy has taken an initiative to give early head start to students in order to make their journey of learning pleasant.

Easy concepts of important competitive examination is taught them in VIII, IX and X in ascending order. Such exercise not only help to boost child's confidence but also help them in various rewarding competitive examinations like NTSE, RMO, HOMI BHABHA BAL VAIDNYANIK, etc. Foundation courses also help child to identify his/her interest and make their career selection easy. They are more comfortable and confident than other student who does not pursue such courses.

CBSE/GUJARAT boards shares similar syllabus and level of questions, which is lower than ICSE in terms of content. WI-fY Academy takes responsibility to cover their school syllabus as well as remaining portion present in ICSE syllabus. Classes will be held for 3-4 days a week for 3-4 hours a day. Their schedule is designed in such a way that their School syllabus will be covered as early as possible. 1-2 days a week will be arranged to cover their school syllabus and other days will be dedicated for competitive examination. Lectures for competitive exams will cover common topics of their school as well as their competitive examination first. Mental Ability Test, Physics, Chemistry, Mathematics and Biology will be taught by different subject professionals, who hold specialization in concerned subject. (This is different from School and Private Tuition, wherein one teacher teaches all subjects and generally fails to impart quality education and development of interest towards science in students).

COURSES OFFERED AT WI-fY

FOR CLASS VIII, IX AND X PREPARING FOR SCHOOL EXAMINATIONS AS WELL AS COMPETITIVE EXAMINATIONS LIKE NTSE, RMO, IMO, NSEJS, INJSO, HBBVS, NSO, MTSE, NSTSE AND OTHER NATIONAL COMPETITIVE EXAMINATIONS.

SUBJECTS:

MENTAL APTITUDE TEST (MAT), MATHEMATICS, PHYSICS, CHEMISTRY AND BIOLOGY

OUR METHODOLOGY

- Lecture delivery only by experienced IITian faculty and faculty with awesome feedback in major institutes. 3 hrs lecture for 3-5 days will be held in a week. (for droppers classes lectures will be held for 4-6 days for 5-8 hours as per requirement).
- Self prepared comprehensive material in form of booklet, assignments and regular analysis sheet.
- Periodical assessment through Lecture Assessment Test (LAT), Topic Wise Assessment Test (TAT), Cumulative Monthly Assessment Test (CMAT) And Cumulative Quarterly Assessment Test (CQAT).

Note:

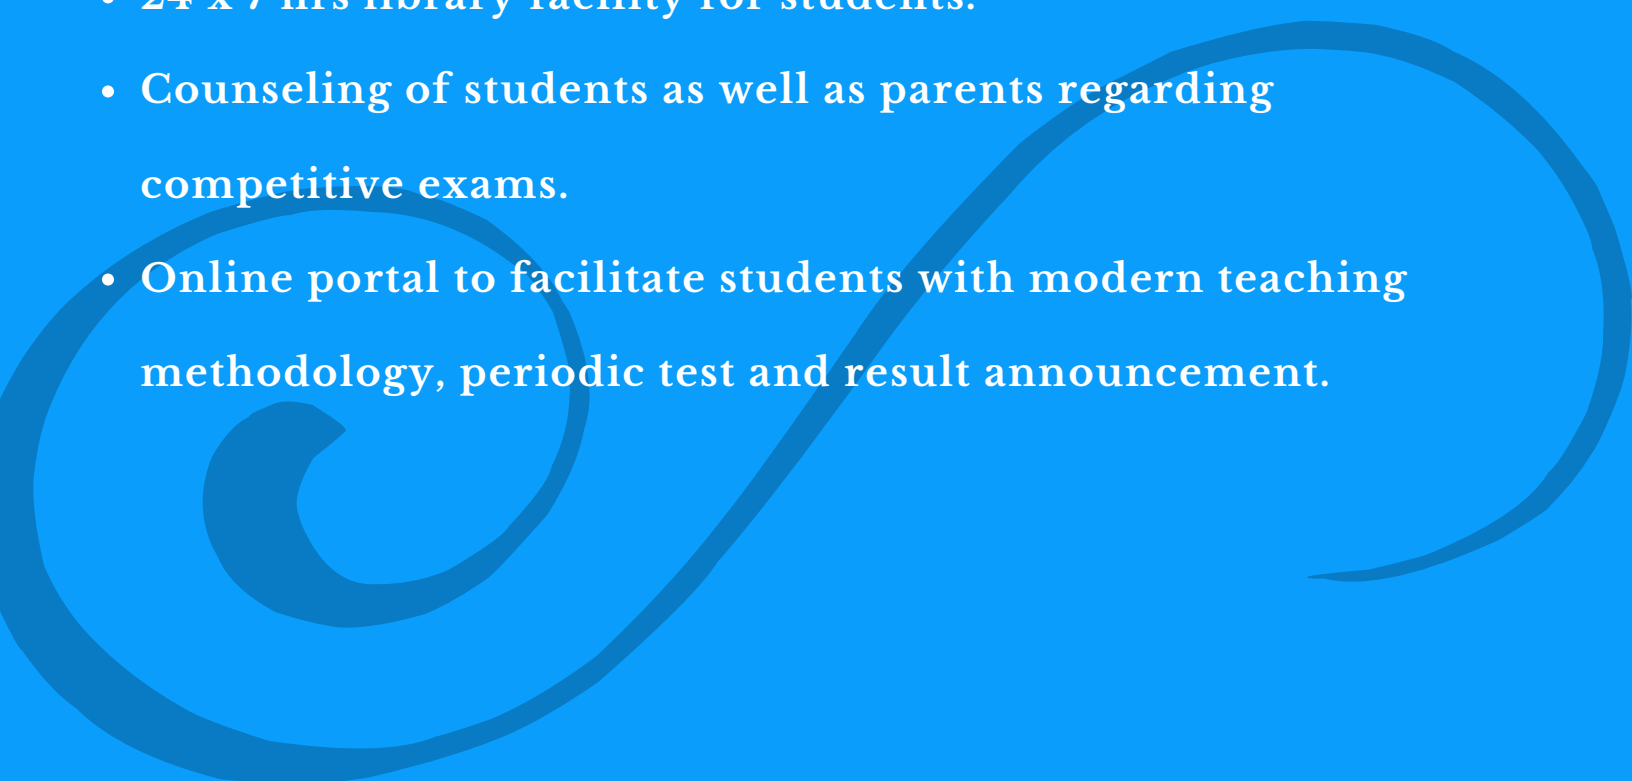

- **LAT:** It is 15min test conducted before lecture based on the last lecture for the topic.
- **TAT:** It is based on the pattern of required entrance exams (Eg: JEE MAINS, etc). Syllabus: Entire Chapter.
- **CMAT:** Test based on the entire teaching for the month. It will be held in first week of coming month.
- **CQAT:** Test based on teaching for 3 months. It will be held in last week of the quarter or first week of coming quarter.
- Result will be displayed on notice board and will be uploaded on our website within 3 days of test conducted.

- Subjective test for school exams and Olympiads, before their exams in schools.
- Interactive sessions by experienced faculty in institute and even
- by using modern networking applications like whatsapp, skype telephonic conversation, etc.
- Facilitating students for clearing their doubts and nurture them for time bound, result and feedback oriented system.
- Use of projectors and other relevant technology to improve understanding and interest of student in science.
- Regular attendance using biometric/ finger sensing technology and report will be send to parents by telephone, in case of student being absent.
- Monthly parents-teacher meeting will be held where parents will be given assessment report for the month and they will be guided for future action. Parents can meet faculties in person to discuss about their ward after classes or with prior appointment with faculty.
- On completion of full syllabus revision lectures and series of full length test (20-50 or even more if time permits) will be held so that real entrance test appears as one of the tests at WI-fY Academy.
- Friendly, motivating and stress free environment for the students will be ensured.

SALIENT FEATURES

- Full time faculty who will reside in Vapi and Valsad and will be available for doubts solving session.
 - Mentorship: Each student will be mentored as per their aspiration and study plan. Mentor will guide students to achieve their study targets on time.
 - Personal attention and daily assessment of student on basis of their performance in weekly, monthly and quarterly test.
 - Targeting BOARDS as well as COMPETITIVE exams.
 - There will be separate classes for CBSE, ICSE AND GSEB.
 - 24 x 7 hrs library facility for students.
 - Counseling of students as well as parents regarding competitive exams.
 - Online portal to facilitate students with modern teaching methodology, periodic test and result announcement.
